

DAVE KISTLER

Every Night At Nine

During WWII, a group of men, evidently led by an adviser to Winston Churchill, stopped what they were doing and knelt, each evening, to pray for the safety of England. The Lord heard their prayers and the bombing stopped. I want to challenge each of you to join me, and a host of other people who believe in revival, in praying each evening around 9:00 pm (or thereabouts if you have obligations as I do many evenings at that time), for the upcoming election and for revival in our blessed land. Though we may be separated by many miles, geographically, we can all simultaneously petition our common Lord for His hand to once again rest on our nation. Never has the need of our nation been greater. And never has it been more evident that prayer is the key. May I suggest that the following items be some of the things, for which we petition heaven:

1. Forgiveness for our own sin as well as the sin of our nation
2. An acknowledgement of our desperate need for God
3. A spirit of humility to once again characterize God's people
4. A spirit of deep conviction to descend on America's citizens (especially our youth)
5. A renewed interest in and love for God's Word
6. Men in America's pulpits who fear nothing but God
7. A holy love on the part of believers for each other
8. The election of men and women to high office who recognize our dependence on a holy God

The above stated items are merely suggestions and a starting place.

"The effectual fervent prayer of a righteous man availeth much." (James 5:16)
